

PRODUCT FEATURES

Versatile and flexible, our external folding/sliding doors are the perfect way to open your home and create the illusion of more space. Available in Anthracite Grey off the shelf and any RAL number colours using the bespoke service, we really can help in creating your dream home.

Stocked in three modular configurations, the bi-fold systems run on four stainless steel wheels to ensure performance is smooth and consistent.

For smaller openings, the Aluvu external French door set's offer a simple yet classic way to create a brighter space in your home. The doors are rebated to ensure thermal efficiency and security.

EXTERNAL DOOR SYSTEMS

Founded in 1981, LPD has been at the forefront of manufacturing, importing, and distributing internal and external doors for a domestic market for 40 Years.

Our innovative Aluvu range comprise of external Bi-Fold and French Door options, that blur the lines between indoor and outdoor living for a seamless transition between spaces. Sleek in design, our aluminium doors provide a contemporary aesthetic. While the large, glazed panels allow for natural light to flood the home.

All our Aluminium door sets are manufactured on site in our Leeds based facility. They are available in both standard stock options, as well as bespoke to cater to every space. Competitively priced and with delivery direct to the consumer on the UK Mainland, LPD really do make it easy to EXPECT MORE.
